REMARKS.

Inaugurating this schepries the Proprietor feels something like an Author does in writing his Fredow, that some reason should be given for intrading upon the attention of the Public particularly as he relies upon public patronage. To be introduced to the Author does in writing attention and the first them. As a result of an occupied experience in the Liquor Business he believes that adsales in Injunes whe sells an similarated compound of indigestible and obnoming ingredients and calls in pure drink inconstruct in until or the business, and that one who does seen thing assessment IS PIT for the Parliamitary.

That a prevented state, very prevalent out the Facilite Coast, has encouraged this class of dealers until the dealers themselves actually seed at the loss of purity, is a feet.

It becomes necessary, therefore, that some one should make an effort in the right direction, and in spite of the fact that for some time start partners, the other controls, believe that were Liquor's description to those to which they have become accustomed, they will eventually learn that they actually nice muching—standing equally with those who have catered to their taske-of pure Liquor.

that they schadly kines maining—shading equally with those who have catered to their lasts—
of pure liquors.

There are men who claim to know, who assert that they years the mixed liquors, and they
side, weak arguments in support of their position. The writer can but conclude that the same
men would rearra an article of jossity made from 10 inseed of it carst gold. The reason
liquors are occupanted to that the profit to the dealer shall be increased THERE IS NO
OFFILID BEAMS, AND BONT YOU FORGET I'C Can the profits to increased by adding a
more expensive iliquor! Hardly ever. Then what do suppose is added!

The Dealmon Sample Boom will allow so thing of a factions cheracter, and the desire of its
proprietor is that his example may be followed by others. He invites suggestions from everybody who knows, or who claims to know saysting about the business, as he
intends he please sweepledly who can appropriate a good thing, but he will not
to pictuae cruybody, callow any compounded, blended, fluttored, or any other form of
trainition liquors to be dispensed into the counter of the BUSINESS SAMPLE (
BOOM.

Union Lengue Politics.

New York, 11.—The Union Lesgue Club met to-night, when resolutions footing to the expulsion of members who had avowed themselves for Rancock, which were introduced at the last meeting of the club and referred to a special committee, were kind up. After some discussion, a resolution was adopted as a comprovise, declaring that the club arrepressed the hope that the committee on admissions would not report for admission the name of any person whose views on public matters did not, in their opinion, agree with these of the republican party, as heretofore appearsed. This virtually ends the dispute which has agitated the club for the past month or two.

DAVID EVANS

Davitt to be Done For

New York, 12.—World's London: A member of the government informs me to-night that all preliminary arrangements have been made for the apprehension of Michael Davitt, Laud Lesgue agitator, as soon as he sets foot in Queenstown. The main points of his farewell address before leaving New York, as well as the circumstances attending his departure, were telegraphed here by government agents in the United States and government is not disposed to allow another firebrand to be thrown into Ireland. Davitt is exceedingly popular in all nationalist sections of the Island, but exceedingly in the west, where the revolutionary spirit is the strongest. His effects in America in behalf of the Land Lesgue have added immensity to his popularity, and the fact that he is boldly returning is beard the Britan lion in bis den, at the risk of his own freedom, is sufficient of treatments.

The California Vote-A Curi-

Ous Question.

New York, 12.—The Tribune says: Perhaps it will be existence to the forgery conspirators to read this morning that Hancock has a plurality of 122 votes in California, for which he is undoubtedly indebted to them. Perhaps with the pesitentiary is prespective it will not. The democratic elector who was scratched on account of his personal unpopularity is surely defeated, and thus Garfield will have one of the sir electoral votes of the state, making the final computation of the electoral vote as follows: Garfield, 214; Hancock, 155. The incident has given rise in democratic newspapers to fresh criticisms on the electoral systems, the argument being that the presidential preference of the personal unpopularity of one of the personal unpopularity of one of the personal unpopularity of one of the personal the voters who ceratched the obnorious name knew perfectly well that they were voting for only five Hancock electors, but if the argument were better, the hardship would still be slight compared with some previous cases that are somewhat analagon. Clay lost two votes from Maryland in '22, because two of the electors were elect and the state law gave the electors were elected to the provious cases that are somewhat analagon. Clay lost two votes from Maryland in '22, because two of the electors were electors that has gave the electors were electors that has gave the electors. Nevada once cast only two votes, one of the electors having died, and there being again no power to fill the vacancies. But why worry? One yote wouldn't make Hancock president. ous Question.
